FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

Thene has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills — one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hithorto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it anse from a previously emisting obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are spilicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Lous of Appetite, Listlesaness, Irritability, Bilious Heedachs, Bilious Fever, Fever and Ague, Pain in the Sida and Loins: for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Contiveness, Piles, Colic, Dysentery, Humora, Serofula and Seuryy, Colds with screeness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropey, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of

nitherto been available to marking. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Heing sugar-wrapped they are pleasant to take, and being purely vegetable, as harm can arise from their use in any quantity.

For minute directions see wrapper on the Bex.

CONSUMPTION.

This remedy has won for isself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its surjeter in any community where it has been employed. So write is the field of its navialses, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been realored from alsoming and even desperate diseases of the hings by its use. When once tried its superiority over every other medicing of its find is ten spharest to express the exerce observation, and where its virtues are known, the public no longer hesitate what untilded to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formittation extracts upon the lungs, but for the milder varieties of Coules, Corona, Hoansunkes, So.; and for Chilingan it is the pleasantest and safest about a that can be obtained.

As it has long been in constant use throughout this section, as need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuius article is sold by— CONSUMPTION.
